Contents of Volume 66, 2007

(All rights reserved)

Hot Topic Lecture

Chair: G. Lobley, *Rowett Research Institute, Aberdeen, UK*

Extra-adrenal regeneration of glucocorticoids by 11β-hydroxysteroid dehydrogenase type 1: physiological regulator and pharmacological target for energy partitioning.
B. R. Walker 1–8

Symposium on 'Nutrition interventions in high-risk groups'

Chair: G. McNeill, *Rowett Research Institute and University of Aberdeen, UK*

Secondary prevention of CHD in UK men: the Diet and Reinfarction Trial and its sequel.
M. L. Burr 9–15

Nutritional interventions in critical illness.
J. Powell-Tuck 16–24

Nutrition interventions in women in low-income groups in the UK.
A. S. Anderson 25–32

Nutrition Society Silver Medal Lecture

Chair: A. Prentice, *MRC-Human Nutrition Research, Cambridge, UK*

High-fat diet, muscular lipotoxicity and insulin resistance.
P. Schrauwen 33–41

Postgraduate Symposium

Chairs: M. Symonds, *University of Nottingham, UK*; **P. Tighe,** *University of Aberdeen, UK*

Dietary and genetic modulation of DNA repair in healthy human adults.
J. Tyson & J. C. Mathers 42–51

Metabolic interaction of dietary sugars and plasma lipids with a focus on mechanisms and *de novo* lipogenesis.
M. F. F. Chong, B. A. Fielding & K. N. Frayn 52–59

Impact of EPA and DHA on blood lipids and lipoprotein metabolism: influence of apoE genotype.
E. Anil 60–68

Effect of cooking brassica vegetables on the subsequent hydrolysis and metabolic fate of glucosinolates.
V. Rungapamestry, A. J. Duncan, Z. Fuller & B. Ratcliffe 69–81

Plenary Lecture

Chair: N. Hoggard, *Rowett Research Institute, Aberdeen, UK*

Mechanisms of the components of the metabolic syndrome that predispose to diabetes and atherosclerotic CVD.
R. H. Eckel 82–95

Plenary Lecture

Chair: P. Barrett, *Rowett Research Institute, Aberdeen, UK*

Sensory processing in the brain related to the control of food intake.
E. T. Rolls 96–112

Symposium on 'Molecular mechanisms and psychology of food intake'

Chair: P. Barrett, *Rowett Research Institute, Aberdeen, UK*

Cues to overeat: psychological factors influencing overconsumption.
M. M. Hetherington 113–123

Brain responses to obesogenic diets and diet-induced obesity.
Z. A. Archer & J. G. Mercer 124–130

Peripheral tissue–brain interactions in the regulation of food intake.
M. López, S. Tovar, M. J. Vázquez, L. M. Williams & C. Diéguez 131–155

Editorial
C. J. Newbold 157

Symposium on 'Genetic polymorphisms and disease risk'

Chair: N. Booth, *University of Aberdeen, Aberdeen, UK*

Genetics of osteoporosis.
S. H. Ralston 158–165

n-3 PUFA in CVD: influence of cytokine polymorphism.
C. von Schacky 166–170

Plenary Lecture

Chair: H. McArdle, *Rowett Research Institute, Aberdeen, UK*

The interplay between nutrients and the adipose tissue.
F. Haugen & C. A. Drevon 171–182

Symposium on 'Molecular basis for diseases'

Chair: H. McArdle, *Rowett Research Institute, Aberdeen, UK*

ApoE genotype, cardiovascular risk and responsiveness to dietary fat manipulation.
A. M. Minihane, L. Jofre-Monseny, E. Olano-Martin & G. Rimbach 183–197

Developmental programming of energy balance and the metabolic syndrome.
E. C. Cottrell & S. E. Ozanne 198–206

Phytochemicals and cancer.
I. T. Johnson 207–215

The Boyd Orr Lecture

Chair: P. Morgan, *Rowett Research Institute, Aberdeen, UK*

Life-course approaches to inequalities in adult chronic disease risk.
G. Davey Smith 216–236

Symposium on 'Nutrition–immunity interactions in farm animals'

Chair: J. Houdijk, *Scottish Agricultural College, Edinburgh*

Differential immunomodulation with long-chain *n*-3 PUFA in health and chronic disease.
J. W. C. Sijben & P. C. Calder 237–259

Nutritional management of gut health in pigs around weaning.
J.-P. Lallès, P. Bosi, H. Smidt & C. R. Stokes 260–268

Professional Development

Professional regulation of nutritionists: where are we now?
J. P. Landman & S. A. Wootton 269–276

Symposium on 'Molecular mechanisms and psychology of food intake'

Chair: P. Barrett, *Rowett Research Institute, Aberdeen, UK*

The psychology of food craving.
A. J. Hill 277–285

Symposium on 'Nutrition interventions in high-risk groups'

Chair: G. McNeill, *Rowett Research Institute and University of Aberdeen, Aberdeen, UK*

CVD risk in South Asians: the importance of defining adiposity and influence of dietary polyunsaturated fat.
J. A. Lovegrove 286–298

Symposium on 'Pre and probiotics'

Chair: J. Powell-Tuck, *Barts and the London NHS Trust, The Royal London Hospital, London, UK*

Enteral-tube-feeding diarrhoea: manipulating the colonic microbiota with probiotics and prebiotics.
K. Whelan 299–306

Evidence for the use of probiotics and prebiotics in inflammatory bowel disease: a review of clinical trials.
C. Hedin, K. Whelan & J. O. Lindsay 307–315

Symposium on 'Managing complications in long-term parenteral nutrition'

Chair: A. Davidson, *St Mark's Hospital, London, UK*

Is intestinal transplantation now an alternative to home parenteral nutrition?
S. J. Middleton 316–320

Symposium on 'Eating, illness and the gut: is there disorder in the house?'

Chair: G. Frost, *University of Surrey, Guildford, UK*

Signals generating anorexia during acute illness.
W. Langhans 321–330

Critical illness and changes in sensory perception.
S. S. Schiffman 331–345

Strategies to improve ingestive behaviour with reference to critical illness.
I. Davidson & S. Smith 346–350

Sir David Cuthbertson Medal Lecture

Chair: G. Frost, *University of Surrey, Guildford, UK*

Metabolic cross talk between the colon and the periphery: implications for insulin sensitivity.
M. D. Robertson 351–361

Symposium on 'Inflammation technology: putting theory into practice'

Chair: P. Turner, *Royal Liverpool University Hospital, Liverpool, UK*

Glucose control in the intensive care unit: how it is done.
J. Harper 362–366

Controversies in the determination of energy requirements.
C. E. Weekes 367–377
Protein and the critically ill; do we know what to give?
M. Stroud 378–383

Symposium on 'Nutrition in early life: new horizons in a new century'

Session 1: Feeding and infant development

Chair: G. Goldberg, *MRC Human Nutrition Research, Cambridge, UK*

Breast-feeding and immune function.
L. Å. Hanson 384–396
Human milk: maternal dietary lipids and infant development.
S. M. Innis 397–404
Probiotics and prebiotics in infant nutrition.
H. Parracho, A. L. McCartney & G. R. Gibson 405–411

Session 4: Mineral metabolism and body composition

Chair: A. Williams, *St George's Hospital, London, UK*

Iron status of breast-fed infants.
K. G. Dewey & C. M. Chaparro 412–422
Programming of body composition by early growth and nutrition.
J. C. K. Wells, S. Chomtho and M. S. Fewtrell 423–434

Session 6: Infant nutrition: future research developments in Europe

Chair: M. Ashwell, *Ashwell Associates, Ashwell, UK*

EARNEST, the early nutrition programming project: EARly Nutrition programming – long-term Efficacy and Safety Trials and integrated epidemiological, genetic, animal, consumer and economic research.
M. S. Fewtrell, on behalf of the EARNEST consortium 435–441
Integration of physiological and molecular mechanisms of the developmental origins of adult disease: new concepts and insights.
M. E. Symonds 442–450

Session 7: Early nutrition and later health

Chair: M. Wadsworth, *MRC National Survey of Health and Development, Cambridge, UK*

Early developmental pathways of obesity and diabetes risk.
D. B. Dunger, B. Salgin & K. K. Ong 451–457

Joint symposium with the British Society for Immunology, Developmental Immunology Group on 'Nutritional influences on developmental immunology'

Chairs: L. Harbige, *University of Greenwich, UK*; **M. Turner,** *Babraham Institute, Cambridge, UK*

Effects of dietary retinoids and carotenoids on immune development.
R. Rühl 458–469

Symposium on 'Nutritional supplements and drug efficacy'

Chairs, C. Hankey, *University of Glasgow, Glasgow, UK*; **A. Payne,** *University of Plymouth, Plymouth, UK*

Nutritional supplements and conventional medicine; what should the physician know?
G. P. Webb 471–478

Use of herbal supplements and nutritional supplements in the UK: what do we know about their pattern of usage?
M. R. Ritchie 479–482

Risk management of nutritional supplements in chronic illness: the implications for the care of cancer and depression
U. Werneke 483–492

One is okay, more is better? Pharmacological aspects and safe limits of nutritional supplements
P. Mason 493–507

Nutritional supplements and the EU: is anyone happy?
C. Eberhardie 508–511

Symposium on 'Nutrition in early life: new horizons in a new century' Elsie Widdowson Lecture 2006

Chair: R. Whitehead, *MRC Human Nutrition Research, Cambridge, UK*

Mining the depths: metabolic insights into mineral nutrition
A. Prentice 512–521

Pennington Lecture

Chair: P. Howard, *Bristol Royal Infirmary, Bristol, UK*

Malnutrition: another health inequality?
R. J. Stratton 522–529

Symposium on 'Managing complications in long-term parenteral nutrition'

Chair: A. Davidson, *St Mark's Hospital, London, UK*

Managing liver dysfunction in parenteral nutrition
D. A. J. Lloyd & S. M. Gabe 530–538

Symposium on 'Genetic polymorphisms and disease risk'

Chair: N. Booth, *University of Aberdeen, Aberdeen, UK*

B-vitamins, genotype and disease causality
P. Haggarty 539–547

Symposium on 'Micronutrients through the life cycle'

Chairs: M. Gibney, *Trinity College Dublin, Republic of Ireland*; **I. Rowland, J. J. Strain and H. McNulty,** *University of Ulster, Coleraine, UK*; **K. Cashman and M. Keily,** *University College Cork, Cork, Republic of Ireland*

Folate and vitamin B_{12}: friendly or enemy nutrients for the elderly
G. J. Cuskelly, K. M. Mooney & I. S. Young 548–558

Abstracts of Communications

Long-chain n-3 fatty acids enter advanced atherosclerotic plaques and are associated with decreased inflammation and decreased inflammatory gene expression.
A.L. Cawood, R. Ding, F.L. Napper, R. Young, J. Williams, M. Ward, O. Gudmundsen, S. Payne, H. Vik, C.P. Shearman, S. Ye, P.J. Gallagher, R.F. Grimble & P.C. Calder 2A

Glutamine decreases risk of sepsis in neonates receiving total parenteral nutrition.
E.G.P. Ong, S. Eaton, A.M. Wade, V. Horn & A. Piero 2A

Relationship between birth weight and handedness.
M. Elia, J. Mulligan, P. Betts & R.J. Stratton 3A

Improved outcome of referrals for intestinal transplantation in the UK.
Girish Gupte, Susan Beath, Sue Protheroe, M. Stephen Murphy, Paul Davies, Khalid Sharif, Patrick Mckiernan, Jean De Ville De Goyet, Ian Booth & Deirdre Kelly 3A
An audit of dietitian-prescribed snacks and supplements to elderly care inpatients at a London teaching hospital.
M.P. Bremang, L.J. Callow & C.E. Weekes 4A
Subjects with different dietary fructo-oligosaccharide intakes have similar concentrations of faecal bifidobacteria.
K. Whelan, A. Datta & S. Kallis 4A
Clinical outcomes can be improved by increasing patient knowledge with an information booklet.
A. Culkin, S. Gabe & A. Madden 5A
The effects of oesophago-gastric surgery on antioxidant status.
J. Sultan, F. Di-Franco, I. Anderson, S. Johnson, S.M. Griffin & C.J. Seal 5A
Calcium intakes in patients with coeliac disease and inflammatory bowel disease: are they meeting British Society of Gastroenterology guidelines?
J.E. Dart, M. Abraham, S.P.L. Travis, D.P. Jewell & K. Whelan 6A
Home enteral tube feeding in children with inherited metabolic disorders: safety issues.
S. Evans, A. Macdonald, A. Daly, C. Holden, V. Hopkins, C. Hendriksz & A. Chakrapani 6A
Developing services for young adults who underwent small bowel transplantation in childhood.
S.V. Beath, M. Gabriel, L. Hogg, D. Hartt, G. Gordon, J. Taylor & G. Gupte 7A
Specialist dietetic input for gastroenterology outpatients: is there a need for joint clinics?
J. Le Couteur & D.S. Rowbotham 7A
Methicillin-resistant Staphylococcus aureus (MRSA) in gastrostomy sites: prevalence, route of transmission and relationship to clinical infection and symptoms.
B.M. Hall & P.J. Neild 8A
Use of percutaneous endoscopic gastrostomy tubes to provide nutrition following liver transplantation.
C.F. Donnellan, J.H. Leaper, S.M. Hamlin & C.E. Millson 8A
Percutaneous endoscopic gastrostomy (PEG) placement: patient and carer perceptions of decision-making.
A.M. Brotherton, J. Abbott & P.J. Aggett 9A
A nutrition screening tool based on the British Association for Parenteral and Enteral Nutrition four questions reliably predicts hospitalisation and mortality in respiratory outpatients.
C.E. Weekes, P.W. Emery & M. Elia 9A
Greater total vitamin intakes post-operatively with liquid oral nutritional supplements than food snacks.
R.J. Stratton, G. Bowyer & M. Elia 10A
Impact of combination therapy with peginterferon α-2a and ribavirin on the energy intake and nutritional status of adult patients with hepatitis C.
C. Hamer 10A
Iron absorption is normal in inflammatory bowel disease but assessing iron requirements is complex.
M.C.E. Lomer, W. Cook, H. Jan-Mohamed, R.P.H. Thompson & J.J. Powell 11A
Impact of cholestasis and restricted breast-feeding on developmental outcome in children undergoing liver transplantation before the age of 12 months.
S.V. Beath, C. Patchell, I.D. Van Mourik, A.J. Cash, C. Lloyd & D.A. Kelly 11A
Referral for intestinal transplantation: an audit of patients with intestinal failure.
A.A. Zabron, D.A.J. Lloyd, S.J.L. Ralphs, J.M. Woodward, N.V. Jamieson, S.J. Middleton & S.M. Gabe 12A

Occluded superior vena cava! They think it's all over.
G. Gupte, C. Mehta, K. Sharif & J. De Giovanni 12A
Should malnutrition screening be implemented in general surgical outpatient clinics?
J. Sarveswaran, K.G. Heuser, J. Dick, J. Scantlebury & D. Burke 13A
The growth and feeding of babies 100 years ago: implications for retrospective studies of infant nutrition and adult health.
L.T. Weaver & A. Ferguson 15A
Dietary patterns in infancy: results from the Southampton Women's Survey (SWS).
S. Robinson, L. Marriott, J. Poole, S. Crozier, S. Borland, W. Lawrence, C. Law, C. Cooper, H. Inskip & The Sws Study Group 15A
Comparison of infant feeding practices in five European centres.
J.A. Scott, I. Chatziioannidis, S. Higgins, F. Benatti, A. Uusijarvi, J. Maldonado, M. Totzauer & C.A. Edwards and other members of the INFABIO team 16A
Representation of early nutritional programming in policy documents on infant nutrition: comparison of five European countries.
T. Decsi, S.Z. Bokor, E. Martin-Bautista, C. Campoy, K. Laitinen, J. Von Rosen-Von Hoewel, M.A. Schmid, H. Gage, B. Koletzko, J. Morgan & M.M. Raats 16A
BeWo cells as an in vitro model for iron transport across the placenta.
S.J. Heaton, J.J. Eady, S.J. Fairweather-Tait, H.J. Mcardle, K.S. Srai & R.M. Elliott 17A
Measurement of physiologically-available iron in plasma by HPLC following sample preparation by ultrafiltration or solid-phase extraction.
K.J. Collard 17A
Plasma carnitine concentrations and carnitine ester profiles in children with coeliac disease.
G.C. Talián, B. Melegh, V. Jakobik, A. Tárnok & T. Decsi 18A
Infant growth and later body composition: evidence from the four-component model.
S. Chomtho, J.C.K. Wells, J.E. Williams & M.S. Fewtrell 18A
Vitamin D and linear growth: cohort study on long-term effects of rickets and large-dose supplementation.
E. Hyppönen, M. Fararouiei, C. Robertson & M.R. Järvelin 19A
Birth weight and infant growth in The Gambia are not significantly related to maternal plasma 25-hydroxyvitamin D concentration during pregnancy.
A. Prentice, L.M.A. Jarjou, J. Bennett, H. Olausson, M.A. Laskey, I. Schoenmakers & G.R. Goldberg 19A
Comparison of two models of intrauterine growth retardation (IUGR) for studies investigating later diabetes development in rats.
Y. Shahkhalili, J. Moulin, K.J. Acheson, O. Aprikian, I. Zbinden & K. Mace 20A
Low-grade inflammatory markers: levels and determinants in a rural West African population.
A.A. Davies, S.E. Moore, A.J. Fulford & A.M. Prentice 20A
Sources of dietary protein and lipid interact to modify maternal and fetal development in the pregnant rat.
C.J. Mcneil, C.A. Maloney, S.M Hay & W.D. Rees 21A
Environmental influences on pre- and postnatal growth in sheep.
D.S. Gardner & M.E. Symonds 21A
Juvenile obesity rather than nutrient restriction in utero influences appetite regulation in the growing sheep.
S. Sebert, H. Budge, D. Keisler, M.E. Symonds & D.S. Gardner 22A
From science to policy: experience of the Breastfeeding in Ireland Strategic Action Plan.
C.N.M. Kelly, V. Batt, M. Fallon & S. Nic Gabhainn 22A

Nutrition programming statements in materials on infant feeding aimed at parents: comparison among five European countries.
J. Von Rosen-Von Hoewel, K. Laitinen, M.A. Schmid, T. Decsi, E. Martin-Bautista, B. Koletzko, V. Jakobik, C. Campoy, H. Gage, J. Morgan & M.M. Raats 23A
Promoting recommended infant feeding practices in a low-income-sample randomised control trial of a peer-support intervention.
R.G. Watt, E. Dowler, R. Hardy, Y. Kelly, P. Mcglone, B. Molloy, K.I. Tull & M. Wiggins 23A
The evaluation of an FFQ to determine energy, macronutrient, calcium, iron and zinc intakes of infants aged 6 months.
L.D. Marriott, S.M. Robinson, J. Poole, S.E. Borland, W.T. Lawrence, H.M. Inskip, C. Cooper & The Southampton Women's Survey (Sws) Study Group 24A
Attitudes and perceived knowledge about food allergy in parents of young children in five European countries.
K. Synott, J. Bogue, J. Scott, S. Amarri, F. Benatti, A. Gil, A. Uusijä Rvi, E. Norrin, C.A. Edwards & Other Members Of Infabio Project 24A
Is sugar-sweetened beverage consumption associated with increased fatness in children?
L. Johnson, A. Mander, L.R. Jones, P.M. Emmett & S.A. Jebb 25A
Ethnicity-related variation in upper body fatness in East London schoolchildren.
D. Samani, L. Prosser, C. Alston & H.D. McCarthy 25A
Infant body composition and later health outcomes: prospective follow-up study.
S. Chomtho, J.C.K. Wells, J.E. Williams & M.S. Fewtrell 26A
Evaluation of health campaigns in schools; Food Awareness Week, East Berkshire.
S. Rabee, P. Collings, J. Copp & O.B. Kennedy 26A
Low vitamin D status and poor eating habits among Kuwaiti adolescent females: a public health concern for optimisation of bone health.
K. Alyahya, Z. Almazeedi, J.B. Morgan, J. Berry, S.A. Lanham-New & W.T.K. Lee 27A
Use of special diets, nutritional supplements and alternative therapists in a paediatric population of inflammatory bowel disease.
K. Gerasimidis, P. Mcgrogan, K. Hassan & C.A. Edwards 29A
Trends in consumption of foods among supplement users within the Norfolk arm of the European Prospective Investigation into Cancer (EPIC-Norfolk).
M.A.H. Lentjes, A.A. Mulligan, A. Bhaniani, S.A. Bingham, K.T. Khaw & A.A. Welch 29A
Results from a new online method for measuring undergraduate student diet.
F. Comrie, N. Cochrane, L. Aucott, J. Lemon & G. McNeill 30A
Investigation of the relationship between perceived stress and cholesterol in healthy volunteers.
V. Wong, M.R. Ritchie, L.J. Mackinnon, S.E.E. Gates, A. Gilmour, A. Ravishankar, S. Ramnarine & T.J. Gibbs 30A
Monitoring phyto-oestrogen exposure in patients with breast cancer after diagnosis.
A. Gilmour, M.R. Ritchie, L.J. Mackinnon, V. Wong, C. Charlton, C.M. Steel, S.E.E. Gates, J. Smith & T.J. Gibbs 31A
Is the C677T methylenetetrahydrofolate reductase (MTHFR) polymorphism a risk factor for osteoporosis? A pilot study.
C.R. Whittle, J.J. Strain, M. Ward, A.M. Molloy, J.M. Scott, A.S. Mccandless & H. McNulty 33A
LIPGENE Dietary Intervention: cohort details and study design.
A.C. Tierney, J.A. Lovegrove, H. Lovdal Gulseth, C. Defoort, E. Blaak, C. Marin, L. Partyka, B. Karlström, B. Vessby, A. Dembinska-Kiec, J. López Miranda, W. Saris, D. Lairon, C.A. Drevon, C.M. Williams, M.J. Gibney & H.M. Roche 33A
Co-culture of adipocytes with macrophages promotes a pro-inflammatory state and dampens insulin responsiveness in adipocytes that is attenuated by long-chain *n*-3 PUFA.
E. Oliver, C. Phillips, S. Toomey & H.M. Roche 34A

The impact of the apoE genotype on fasting and postprandial TAG.
A.M. Minihane, E. Olano-Martin, R. Gill-Garrison, A.M. Valdes, K. Grimaldi, J.A. Lovegrove & K.G. Jackson 34A
Plasma sterols as markers of cholesterol absorption and synthesis: inter-relationships with plasma lipids and apoE genotype.
N.L. Harman, M. Pourfarzam, R.D.G. Neely & B.A. Griffin 35A
The association among vitamin D status, body composition and glucose metabolism in apparently-healthy normal-weight and overweight women.
M.S. Barnes, A. Mullee, M.P. Bonham, P.J. Robson, J.J. Strain & J.M.W. Wallace 35A
Selenium status influences the effect of folate, vitamin B_{12} and pyridoxal 5′-phosphate on homocysteine concentrations.
B. Bekaert, M.L. Cooper, F. Green, H. Mcnulty, K. Pentieva, J. Scott, A. Molloy & M.P. Rayman 36A
Dietary enrichment with almond (*Prunus amygdalis*) supplementation: effects on CVD risk biomarkers.
K. Choudhury & H.R. Griffiths 36A
Plasma selenium, zinc, copper and glutathione peroxidase concentrations in older subjects during both acute illness and recovery.
S.E. Forster, S.E. Gariballa & H.J. Powers 37A
Stable-isotope studies to measure phylloquinone kinetics and bioavailability.
K.S. Jones, L.J.C. Bluck, L.Y. Wang & W.A. Coward 37A
Potential mechanisms for the chemoprotective effect of cruciferous vegetables in colo-rectal cancer: a clinical trial of indole-3-carbinol.
D.R. McGrath, H.R. Frydoonfar, J.J. Hunt, C.J. Dunkley & A.D. Spigelman 38A
Energy intake and appetite responses of adolescent girls following a netball-specific exercise protocol.
P.L.S. Rumbold & C.J. Dodd 38A
Influence of milk ingestion on the hormonal and immune responses to prolonged exercise.
P. Watson, J. Viana, S. Leser, T. Kirk & M. Gleeson 39A
No association between plasma concentrations of *n*-3 long-chain PUFA and self-reported depressed mood in a non-clinical population.
K.M. Appleton, R.C. Hayward, D. Gunnell, D. Kessler, A.R. Ness, T.J. Peters & P.J. Rogers 39A
Effects of fatty acids on porcine and ovine stearoyl-CoA desaturase (SCD) promoter activities in McArdle cells.
R.M. Zulkifli, J.M. Brameld, T. Parr & A.M. Salter 40A
Alcohol consumption and depressed mood: different associations in Northern Ireland and France.
K.M. Appleton, J.V. Woodside, J.W.G. Yarnell, D. Arveiler, B. Haas, P. Amouyel, M. Montaye, J. Ferrieres, J.B. Ruidavets, P. Ducimetiere, A. Bingham & A. Evans 40A
Nutritional and physical well being: a role for the mental health services.
M. Byrne, B. Ellahi, S. Higgins & D. Howlin 41A
Dietary determinants of micronutrient intake in Irish children aged 5–12 years.
C. Cronin, E.M. Hannon & A. Flynn 41A
Promoting diet related change: An evaluation of a Community Cooks scheme.
R. Gregg & B. Ellahi 42A
Is food choice of 9–10-year-old children in Liverpool related to physical fitness?
A.F. Hackett, L.M. Boddy, B. Johnson & G. Stratton 42A
Contribution of ready-to-eat breakfast cereals to nutrient intakes in Irish children aged 5–12 years.
E.M. Hannon & A. Flynn 43A

A systematic review of the effect of nutrition, diet and dietary change on learning, behaviour and performance of school-aged children.
F.C. Hiller, L.J. Ells, C.D. Summerbell, J. Shucksmith, H. Crawley, L.S. Harbige, J. Hamilton-Shield & A. Wiggins 43A
Investigation into factors influencing dietary intake and physical activity in children aged 10–11 years.
T. Finnerty, N. Randell, S. Rowbottom, C. Vogele, J. Dabinett, S. Reeves & Y. Jeanes 44A
Palmitate induces insulin resistance in monocytes and increases expression of the integrin CD11b
D. Gao, H.R. Griffiths & C.J. Bailey 44A
Trans-10, *cis*-12 conjugated linoleic acid isomer increases transcellular calcium transport without affecting TRPV6 and Calbindin D9k expression in human Caco-2 cells.
E.F. Murphy, K.D. Cashman & R.J. Wood 45A
Nutrient-sensitive interactions between NF-κB and PPARγ.
C. Reynolds, E. Draper, C. Cipolletta, C.E. Loscher & H.M. Roche 45A
Fatty acid effects on endothelial inflammatory gene expression: impact of the approach.
D.I. Shaw, W.L. Hall & C.M. Williams 46A
Reasons, motivations and attitudes of individuals aged 18–25 years, trying to lose weight with various methods and with the use of over-the-counter oral solid weight-loss formulations.
A.M.L. Andronicou, A.F. Hackett, S. Maxwell, J. Richard & J. Krska 46A
Associations of body composition with bone mineral density and proximal femoral geometry in sedentary premenopausal women.
C.A. Bailey, A. Parsons & K. Brooke-Wavell 47A
Dietary fibre (DF) intakes from food sources in Irish children aged 5–12 years.
S. Bannon, J. Walton, E.M. Hannon & A. Flynn 47A
Women of low educational attainment have lower food involvement and eat fewer fruits and vegetables.
M.E. Barker, W.T. Lawrence, J.M. Woadden, S.C. Crozier & T.C. Skinner 48A
A prospective analysis of dietary fat, fibre and energy intake in relation to fatness in childhood.
L. Johnson, A. Mander, L.R. Jones, P.M. Emmett & S.A. Jebb 48A
Intake of total fat, SFA, MUFA and PUFA in Irish children aged 5–12 years.
T. Joyce & M.J. Gibney 49A
Frequency of consumption of added-sugar meals and relationship to percentage total energy from added sugars in a representative sample of Irish adults aged 18–64 years and Irish children aged 5–12 years.
T. Joyce, S.N. McCarthy & M.J. Gibney 49A
Antioxidant vitamin intakes in the progression of gastro-oesophageal reflux disease.
M.L. Hawkins, G.J. Davies, M.F. Chaplin, J.F. Dillon, J.P. Cotton & P.W. Dettmar 50A
Exercise-induced changes in postprandial leptin concentrations are related to changes in fat and carbohydrate oxidation rates.
F.L. Burton, D. Malkova, M.J. Caslake & J.M.R. Gill 50A
Macronutrient, fibre and salt intakes in supplement users and non-users in Irish children aged 5–12 years.
E. Walsh, E.M. Hannon & A. Flynn 51A
Polyphenol content and antioxidant activity of beer.
V.J. Clarke, D. Vauzour, M.H. Gordon, J.M. Ames, R. Muller & J.P.E. Spencer 51A
Effect of acute intervention with flavonoid-rich juice on the plasma antioxidant capacity
C. Niwat, T.W. George, M.H. Gordon & J.A. Lovegrove 52A

An *in vitro* investigation into the cancer-protective role of lycopene.
S. Elgass, G. Scarlett, A. Cooper & M. Chopra 52A
'He says 'I ain't fat. You are. I don't need to diet'': who is controlling the food choices of women with low educational attainment?
W. Lawrence, M. Barker & The Food Choice Group 53A
Socio-economic differences in diet- and health-related attitudinal variables among young Dublin women.
D.M.A. Mccartney, M.T. O'neill, J. Walsh, K.M. Younger & J.M. Kearney 53A
The relationship between diet and CVD risk factors in Ghanaian populations from London and Accra.
M. Owusu, M. Pufulete & J. Thomas 54A
Determinants of early introduction to solid foods in a sample of healthy term infants.
R. Tarrant, M. Sheridan-Pereira, K.M. Younger & J.M Kearney 54A
Uptake and secretion of micellarised lutein from spinach (*Spinacia oleracea*) using a Caco-2 intestinal cell model.
L.P. O'sullivan, L. Ryan & N.M. O'brien 55A
Bioavailability and speciation of selenium from selenium-enriched mushrooms.
M. Rayman, F. Angus & H. Goenaga-Infante 55A
Vitamin D status and bone mineral density in adolescents: The Young Heart's Project.
T. Hill, A. Cotter, J. Wallace, P.J. Robson, C. Boreham W. Dubitzky, L. Murray, A. Flynn, M. Kiely & K.D. Cashman 56A
Differential expression of cancer-related genes in omental adipose tissue in human obesity.
V. Catalán, J. Gómez-Ambrosi, C. Silva, M.J. Gil, J.L. Hernández-Lizoáin, J. Baixauli, F. Rotellar, J.A. Cienfuegos, J. Salvador & G. Frühbeck 56A
Differences in fatty acid-binding protein (FABP) 3 and 4 mRNA expression in skeletal muscle and subcutaneous adipose tissue between normal-birth-weight and low- and high-birth-weight porcine offspring at days 7 and 14 of postnatal life.
A. Mostyn, P.J. Williams, J.C. Litten, K.S. Perkins, A.M. Corson, L. Clarke & M.E. Symonds 57A
Identification of putative protein biomarkers of dietary supplementation with soya foods.
M.C.Y. Wong, J. Wheeler, K.S. Lilley, P.W. Emery, V.R. Preedy & H. Wiseman 57A
Hepatic proteomics in IL-1R1$^{-/-}$ mice that are resistant to obesity-induced insulin resistance following a high-fat diet.
B.D.E. Roos, K. Ross, G. Rucklidge, S. Toomey, J. Browne & H.M. Roche 58A
The effect of *trans*-10, *cis*-12 conjugated linoleic acid on gene-expression profiles related to lipid metabolism in human Caco-2 cells.
E.F. Murphy, G.J.E.J. Hooiveld, M. Muller, R.A. Calogero & K.D. Cashman 58A
Interaction between dietary fatty acids and genetic variation in the metabolic syndrome.
C. Phillips, L. Goumidi, S. Bertrais, J. Ferguson, R. McManus, S. Hercberg, D. Lairon, H.M. Roche & R. Planells 59A
Oestrogen receptor genotype and response of bone-health indices to dietary phyto-oestrogen intervention in European post-menopausal women.
K.M. Seamans, S. Cusack & K.D. Cashman on behalf of the PHYTOS Consortium 59A
Feeding a diet with conjugated linoleic acid (CLA)-enriched beef improves the diabetic phenotype in ob/ob mice.
S. Toomey, J. McMonagle, A. Moloney & H.M. Roche 60A
The effect of dietary source of very-long-chain *n*-3 PUFA on the EPA and DHA concentrations of edible chicken tissues.
R.A. Gibbs, C. Rymer & D.I. Givens 60A
Survey of packed lunches in British primary schoolchildren age 8–9 years.
C.E.L. Evans, J.D. Thomas, D.C. Greenwood & J.E. Cade 61A

Effects of acute consumption of fruit- and vegetable-juice shots on vasodilation and risk factors for CVD.
T.W. George, C. Niwat, M.H. Gordon & J.A. Lovegrove 61A
A novel approach to dietary analysis: exploration of food intake at the meal level.
A.P. Hearty & M.J. Gibney 62A
A longitudinal study of tracking of adiposity from early adolescence to young adulthood: Northumberland, UK (ASH 17).
A.E. Hossack, E. Stamp, E.S. Northover, J.C. Mathers & A.J. Adamson 62A
Low-income groups' perceived barriers to healthy eating: a qualitative study.
S. Kleemann, O. Haughey & K. Younger 63A
The prevalence of underweight and probable undernutrition in first-trimester pregnant women.
J.C. Abayomi, H. Watkinson, J. Topping & A.F. Hackett 63A
Do women reduce alcohol, tea and coffee consumption, and stop smoking when pregnant? Longitudinal data from the Southampton Women's Survey.
S.E. Borland, S.M. Robinson, S.R. Crozier, K.M. Godfrey, H.M. Inskip & The Sws Study Group 64A
Fish eating in pregnancy in relation to depression during and after pregnancy.
P. Emmett, C. Steer, J. Hibbeln, J. Davis & J. Golding 64A
Folate status in pregnant women in relation to compliance with current folic acid recommendations for the prevention of neural-tube defects.
B. McNulty, K. Pentieva, B. Marshall, M. Ward, A.M. Molloy, J.M. Scott & H. McNulty 65A
Homocysteine and related B-vitamin concentration in pregnant women recruited as part of the Seychelles Child Development Study.
J.M.W. Wallace, M.P. Bonham, E.M. Duffy, P.J. Robson, M. Ward, H. Mcnulty, P.W. Davidson, G.J. Myers, T.W. Clarkson, C.F. Shamlaye, A.M. Molloy, J.M. Scott & J.J. Strain 65A
Effects of the chronic consumption of fruit- and vegetable-juice shots on oxidative stability of plasma.
S. Waroonphan, E. Paterson, T.W. George, M.H. Gordon & J.A. Lovegrove 66A
Effects of breakfast on physiological and psychological responses to foods eaten later in the day.
N.M. Astbury, E.J. Simpson, M.A. Taylor & I.A. Macdonald 66A
Colon-available raspberry extract exhibit anti-cancer effects on *in vitro* models of colon cancer.
E.M. Coates, G. Popa, C.I.R. Gill, M. McCann, G.J. McDougall, D. Stewart & I. Rowland 67A
Comparison of dietary assessment methods within a population suffering from gastro-oesophageal reflux disease.
M.L. Hawkins, G.J. Davies, M.F. Chaplin, J.F. Dillon, J.P. Cotton & P.W. Dettmar 67A
The relationship between plasma antioxidants and respiratory health in young adulthood: The Northern Ireland Young Hearts Project.
C.E. Neville, J.V. Woodside, L.J. Murray, G.W. Cran, C.A.G. Boreham, P. McCarron & I.S. Young 68A
Investigation of dietary factors and faecal water biomarkers in relation to colorectal cancer.
J. Pearson, C. Gill, A. McGlynn & I. Rowland 68A
Evaluation of quinoa (*Chenopodium quinoa* Willd.) in coeliac disease.
V. Zevallos, P.J. Ciclitira, T. Suligoj, L.I. Herencia & H.J. Ellis 69A

Cultural differences in the sources of dietary Ca in post-menopausal Caucasian and South Asian women living in Blackburn, Lancashire, UK.
S.R. Mitra, P.C. Foster, P.A. Judd, B. Ellahi & N.M. Lowe 69A
Trends in phytate and fibre (NSP) consumption over seventeen adult years in a British birth cohort.
A. McCarron, C.J. Prynne A.M. Stephen & M.E.J. Wadsworth 70A
Influence of low-glycaemic sweetener isomalt on metabolic variables and vascular risk factors in patients with type 2 diabetes.
I. Holub, A. Gostner, S. Hessdoerfer, S. Theis, G. Bender, B. Willinger, B. Allolio, G. Kozianowski & W. Scheppach 70A
n-3 Fatty acids in the maternal diet during rat pregnancy alter expression of cell surface markers on cytotoxic T-cells in both the mother and the fetus and increase the proportion of natural killer cells in the fetal thymus.
C.E. Childs, T. Romijn, U. Enke & P.C. Calder 71A
Vitamin D status in women living in Ireland at different stages of pregnancy.
S. Muldowney, K.D. Cashman, J.R. Higgins, T. Moore & M. Kiely 71A
Fatty acid status of a high-fish-consuming population of pregnant women from Seychelles.
M.P. Bonham, E.M. Duffy, J.M.W. Wallace, P.J. Robson, G.J. Myers, P.W. Davidson, T.W. Clarkson, C.F. Shamlaye & J.J. Strain 72A
Iron status of pregnant women and their neonates participating in the Seychelles Child Development Nutrition Study.
E.M. Duffy, M.P. Bonham, J.M.W. Wallace, P.J. Robson, G.J. Myers, P.W. Davidson, T.W. Clarkson, C.F. Shamlaye & J.J. Strain 72A
Associations between bone turnover and inflammatory status in young overweight adults.
A. Lucey, G. Paschos, K.D. Cashman, J.A. Martínéz, I. Thorsdottir & M. Kiely 73A
Plasma 8-isoprostane F2α concentrations are associated with plasma total cholesterol.
U.Z. Mulla, S.E.E. Berry, R. Sherwood & T.A.B Sanders 73A
A structured patient-education programme for individuals with type 2 diabetes: The X-PERT Programme in Ireland.
Y.M. O'brien, T.A. Deakin, F.M. Horan, J.M. Kearney, S.N. Mccarthy, M.J. Gibney & K E. Harrington 74A
Cardiovascular risk profiles of women with polycystic ovary syndrome (PCOS) compared with women who are insulin resistant or insulin sensitive and matched for age and BMI.
A. O'connor, N. Phelan, G. Boran, J. Gibney & H.M. Roche 74A
Modest improvements in weight maintenance on a low-glycaemic index (GI) diet following weight loss in overweight and obese subjects.
E. Philippou, N.M. Neary, O.B. Chaudhri, A.E. Brynes, A. Dornhorst, A.R. Leeds, M. Hickson & G.S. Frost 75A
Effect of flaxseed lignans on biomarkers of breast cancer risk in post-menopausal women.
L.A. Williamson, N.J. Mann, A.J. Sinclair, D. Kildea, D. Small & H. Adlercreutz 75A
The rate of gastric emptying and blood ^{2}H accumulation following repeated ingestion of glucose–electrolyte solutions.
G.H. Evans, S.M. Shirreffs & R.J. Maughan 76A
Long-term consequences of early fruit-and-vegetable feeding practices in the weaning period.
P. Emmett, H. Coulthard & G. Harris 76A
Using reduced rank regression to find a dietary pattern related to fat mass in childhood.
L. Johnson, A. Mander, L.R. Jones, P.M. Emmett & S.A. Jebb 77A

Increased portion size leads to a sustained increase in energy intake over 4 d in normal-weight and overweight men and women.
M.T. Kelly, A. Fletcher, S.F. Brennan, J.M.W. Wallace, P.J. Robson, R.W. Welch, M.P. Hannon-Fletcher & M.B.E. Livingstone 77A
Snacks *v.* meals: similarities and differences among children and adolescents.
M.A. Kerr, T.A. Mccaffrey, K.L. Rennie, J.M. Wallace, M.P. Hannon-Fletcher & M.B.E. Livingstone 78A
Can the method of calculating energy density influence the interpretation of the relationship between energy density and fat mass in children?
T.A. Mccaffrey, K.L. Rennie, M.A. Kerr, J.M. Wallace, M.P. Hannon-Fletcher, S.A. Jebb, W.A. Coward & M.B.E. Livingstone 78A
The effects of soyabean-phyto-oestrogen-rich diet on lipid profile, endothelial function and menopausal symptoms
Z. Büyüktuncer, E. Akgül, G. Köksal, K. Hanna, B. Ellahi, H. Yarali & L. Tokgözoğlu 79A
The effect of lactulose and inulin on gastric emptying in men.
M. Clegg, A. Shafat, M. Dobson & M. Rowland 79A
Apple procyanidins inhibit TNFα-induced pro-inflammatory effects in human umbilical vascular endothelial cells.
C.A. Connor, P.A. Kroon & D.A. Hughes 80A
The effects of plant sterols on the viability and proliferation of Caco-2 cells.
T.J. Daly, S.A. Aherne, T.P. O'connor & N.M. O'brien 80A
A comparison of the revised restraint scale, the three-factor eating questionnaire and the Dutch eating-behaviour questionnaire in predicting disinhibition.
C. Martins, E. Tolhurst & L.M. Morgan 81A
Ethnic-specific equations *v.* a generalised equation in Afro-Caribbeans using the BodPod (self testing).
N. Mathe, J. Gandy, D. McCarthy & D.A. Brodie 81A
The effects of lignan-rich extracts on human Jurkat T-cells.
M. Phelan, S.A. Aherne, A. Wong & N.M. O'brien 82A
Adherence to Mediterranean diet across the adult population of Symi aged 18–84 years.
K. Jones, B. Ellahi, C. Androuhara & P.M. Lumb 82A
Associations between dietary intake of calcium and vitamin D, anthropometry measures and indices of bone health in Caucasian women: preliminary results from the D-FINES study.
P.A. Lee, K.Y.K Siu, R. Hipgrave, D. David, W.T.K. Lee, D.P. Lovell, M. Kiely, K. Cashman, J.L. Berry & S.A. Lanham-New 83A
Glycaemic load of breakfast and cognitive function in adolescent children.
R. Micha, P.J. Rogers & M. Nelson 83A
Diet and lifestyle as triggers for heartburn: patient perception.
K.L. Oliver, G.J. Davies & P.W. Dettmar 84A
Nutritional status of adults in north-west Iran.
M. Pakseresht, J.E. Cade, D. Forman, R. Malekzadeh & A. Sadjadi 84A
Dietary antioxidant intake among young Greek female smokers and non-smokers.
V. Costarelli, F. Karystinou, C. Noutsou, N. Yiannakoyris & M.G. Vamvakari 85A
Comparison of daily nutrient intakes estimated from 7 d food diaries with that estimated from the first 4 d.
F. O'neill, A. Mavroeidi, D.M. Reid & H.M. Macdonald 85A
Dietary glycated protein modifies detrimentally the human colonic microbiota.
J.M. Ames, D.J.S. Mills, K.M. Tuohy & G.R. Gibson 86A

Strategy to alter the amount and composition of dietary carbohydrate and fat in free-living individuals participating in the RISCK trial.
C. Moore, R. Gitau, G.S. Frost, B.A. Griffin, S.A. Jebb, T.A. Sanders & J.A. Lovegrove 86A
The metabolic responses to moderate-intensity walking and subsequent food intake following a high-glycaemic-index or low-glycaemic-index breakfast in sedentary females.
E.J. Stevenson, N.M. Astbury, E.J. Simpson, M.A. Taylor & I.A. Macdonald 87A
The impact of plant-derived flavonoids on mood, memory and motor skills in UK adults.
P.S. How, R. Cox, J.A. Ellis & J.P.E. Spencer 87A
Assessment of antioxidant biomarkers in human plasma and urine after consumption of wheat bran and aleurone fractions.
L.L. Hamill, E.M. Keaveney, R.K. Price, J.M.W. Wallace, J.J. Strain & R.W. Welch 88A
Glycaemic potency of composite breakfast meals.
R. Micha, A. Leeds & M. Nelson 88A
Wintertime vitamin D status in adults aged 20–40 years from Iceland, Spain and Ireland.
S. Muldowney, A. Lucey, G. Paschos, J.A. Martinéz, I. Thorsdottir, K.D. Cashman & M. Kiely 89A
Bone mineral density in a representative sample of men and women aged 20–40 years.
G. Horigan, M.S. Barnes, D. Dalrymple, J.J. Strain, M.P. Bonham, E.M. Duffy & J.M.W. Wallace 89A
An investigation of a possible nutritional interaction between vitamin D and K status in Danish girls.
E.M. O'connor, C. Mølgaard, K.F. Michaelsen, J. Jakobsen, & K.D. Cashman 90A
Percutaneous endoscopic gastrostomy in patients with Cystic Fibrosis.
M. O'reilly, O. Tully, G. Houlihan, S. Sugrue & C. Gallagher 90A
Nutritional status of elderly patients: assessment of handgrip strength and malnutrition universal screening tool.
S.S. Wong, J.J. Reilly & C.Y. Yau 91A
Nutritional status predicts hospital length of stay and mortality in older adults: assessment of handgrip and malnutrition universal screening tool.
S.S. Wong, C.Y. Yau & J.J. Reilly 91A
Plasma long-chain *n*-3 PUFA status in patients receiving long-term home parenteral nutrition.
B.A. Griffin, S.E. Paynton, D.A.J. Lloyd, S.M. Gabe, A. Rodriquez Mateos & J.A. Lovegrove 92A
The effect of increasing fruit and vegetable intake on endothelial function.
S.E.E. Berry, P.J. Chowienczyk, B. Jiang, K. Mcneill, U.Z. Mulla & T.A.B. Sanders 92A
Obesity and risk of pancreatic cancer: a systematic literature review.
V.J. Burley, D.C. Greenwood, J.E. Cade, J. Moreton, D. Chan, Y.-K. Tu, J.D. Thomas & D. Forman 93A
Dietary patterns and risk of breast cancer: analysis from the UK Women's Cohort Study.
J.E. Cade, E.F. Taylor, V.J. Burley & D.C. Greenwood 93A
Prevalence of obesity in preschool Greek children using two different classification methods.
V. Costarelli, M. Kolotourou, K. Kondakis, C. Tzavara, G. Moschonis & Y. Manios 94A
Maternal and neonatal plasma selenium and risk of early childhood wheeze.
L.C.A. Craig, G. Devereux, G. Mcneill, G. Newman, S.W. Turner, S. Martindale, P.J. Helms & A. Seaton 94A
Prevalence of chronic diseases amongst Bahraini older adults.
G. Al-Raees, J. Earland & A.O. Musaiger 95A

Riboflavin lowers blood pressure in patients with premature CVD homozygous for the methylenetetrahydrofolate reductase (MTHFR) C677T polymorphism.
G. Horigan, M. Ward, H. Mcnulty, J. Purvis, J.J. Strain & J.M. Scott 95A
Fish oil fatty acids improve postprandial vascular reactivity.
K.G. Jackson, C.K. Armah, F. Cheghani, L. James, I. Doman & A.M. Minihane 96A
Processing of oats: effect on antioxidants and induction of gene expression in vascular endothelial cells.
L. Stenhouse, A.M. Salter, D.A. Gray & G.A. Tucker 96A
The interstitial glucose profile preceding symptoms attributed to hypoglycaemia, in otherwise healthy women.
E.J. Simpson, M. Holdsworth & I.A. Macdonald 97A
The ability of dietary polyphenols to protect against endogenously-formed neurotoxins.
D. Vauzour, K. Vafeiadou & J.P.E. Spencer 97A
The effect of consuming an apple-derived product on glucose tolerance and insulin *in vivo*.
M.S. Al Olan, M.N. Clifford, K.L. Johnston & L.M. Morgan 98A
Determinants of food choice in adults of low-socio-economic status: a qualitative investigation.
M. Barton, B. Stewart-Knox & J. Kearney 98A
Differences in the absorption and excretion of soya-milk isoflavones in Oriental and Caucasian men.
J.E. Brown, K. Chana & C. Mahende 99A
The effect of intermittent *v.* chronic energy restriction on weight loss in premenopausal women: preliminary results from a randomised pilot trial to reduce breast cancer risk.
M. Chapman, A. Howell, J. Cuzick, A. Flyvbjerg, P. Hopwood, S. Jebb, G. Parfitt & M. Harvie 99A
Unmetabolized folic acid content of eggs produced by hens fed diets with added folic acid.
L. Hoey, H. Mcnulty, M.E.E. Mccann, K.J. Mccracken, J.M. Scott, B. Blaznik Marc, A.M. Molloy, C. Graham & K. Pentieva 100A
Irish mothers' perception of their own and their child's weight status.
A.F. Mcgloin & L. Delaney 100A
Nutrient intakes at lunchtime of primary-school children in Cornwall: a comparison of school meals and packed lunches.
G.A. Rees, C.J. Richards & J. Gregory 101A
Effects of a synbiotic on biomarkers of oxidative stress and faecal microbiota in healthy adults: results of a cross-over double-blind placebo-controlled trial.
D.M.A. Saulnier, P. Hütt, M. Mikelsaar, D. Bosscher, G.R. Gibson & S. Kolida 101A
The feasibility of a school-based intervention (Tees Consumption and Activity in Kids Experience; TeesCAKE) for the prevention of childhood obesity in a socially-deprived area of the UK.
S.A. Smith, C.L. O'malley, L. Avery, R. Lang, D. Simpson, F. Hillier, V.J. Whittaker & C.D. Summerbell 102A
Increasing fruit and vegetable intake does not favourably affect plasma lipids and folate status.
S.E.E. Berry, R. Sherwood, P.J. Chowienczyk, Z. Mulla & T.A.B. Sanders 102A
The effects of fish oil and DHA on soluble epoxide hydrolase in *apoE*$^{-/-}$ mice.
Y. Mavrommatis, F. Thies, K. Ross, M.J. Gordon, E. Mcleod, A. Sneddon, G. Rucklidge, M. Reid, G. Duncan, C. Mayer, G. Horgan, J. Arthur & B. De Roos 103A
Assessment of the nutritional status of a sample of adult patients with asthma.
M.S. Mohamed 103A

Daily consumption of marjoram (*Origanum majorana* L.) and lettuce (*Lactuca sativa* L.) oils improves the health status of patients with asthma.
M.S. Mohamed, H.H. Saad & M.A. El Khalek 104A
Is there a relationship between B-vitamin status and bone mineral density in young adults? Evidence from the Young Hearts Project, Northern Ireland.
A.M. Gallagher, C.E. Neville, L.J. Murray, J.J. Strain, C.A.G. Boreham, I. Young & H. Mcnulty 104A
Depression and erythrocyte folate levels among women in the Southampton Women's Survey: cross-sectional and longitudinal analyses.
H. Inskip, N. Dunn, S. Robinson, A. Oestmann, J. Barnett, K. Godfrey, C. Cooper, T. Kendrick & The Sws Study Group 105A
An investigation of Irish consumers' use and understanding of nutrition labels on pre-packaged foods.
S. Keogh, M. Cullen & A. McKevitt 105A
Soft drinks and fruit juice: impact on energy and nutrient intakes and adiposity of British adults.
E.M.B. Van Heijningen, C.W. Thane & A.M. Stephen 106A
An examination of socio-economic variation in food and nutrient intake patterns among young women in Dublin using novel diet scores.
J.M. Walsh, M.T. O'neill, D.M.A. Mccartney, K.M. Younger & J. Kearney 106A
Nutritional quality of school-day diets in Irish children (5–12 years).
J. Walton, E.M. Hannon & A. Flynn 107A
Disadvantaged groups of women's perceptions of their nutrition service needs: a qualitative study.
O. Haughey, S. Kleemann & K. Younger 107A
Tracking the prevalence of obesity and overweight in Liverpool schoolchildren.
L.M. Boddy, A.F. Hackett & G. Stratton 108A
Excretion of isoflavonoids in Australian women who do and do not report obvious consumption of soya foods.
K. Hanna, P. Lyons-Wall, G. Eaglesham & S. O'neill 108A
Dietary polyphenols regulate lipolysis in cultured pig fat explants.
K.R. Headland, L. Errard, G.A. Tucker & J.M. Brameld 109A
An exploration of food provision, and commitment to the introduction of a nutrition incentive scheme, in the preschool setting.
C. Johnston Molloy, M. Murtagh, C. Corish, J. Kearney & C. Glennon 109A
Nutritional metabonomics: optimisation for general serum metabolic profiling using ultra-performance liquid chromatography (UPLC) coupled with quadrupole orthogonal acceleration time-of-flight (QToF) MS.
M.C.Y. Wong, H. Feldmann, G. Frost & J. Lodge 110A
Is dietary glycaemic index associated with increased risk of metabolic syndrome in young adults? Evidence from the Young Hearts Project, Northern Ireland.
P.M. Lunny, P.J. Robson, C.E. Neville, L.J. Murray, C.A.G. Boreham & A.M. Gallagher 110A
Induction of phase II enzymes by sulforaphane leads to cardioprotection.
C. Angeloni, E. Leoncini, N. Calonghi, E. Pagnotta, P.L. Biagi & S. Hrelia 111A
Biochemical and proteomic changes in the colon and liver of rats in response to long-term folate deficiency.
S.J. Duthie, G. Grant, G.J. Rucklidge, M.D. Reid, G.J. Duncan, L.P. Pirie & G. Horgan 111A
Phylloquinone intakes and food sources in Irish children aged 5–12 years.
E.M. Hannon, K.D. Cashman, M. Kiely & A. Flynn 112A
The bioaccessibility of α-tocopherol and retinol from a range of vitamin-enriched foods.
Y.C. O'Callaghan, O. Kenny & N.M. O'Brien 112A

Effect of fibre on the bioaccessibility of carotenoids from a combination of vegetables.
O.F. O'Connell, L. Ryan, & N.M. O'Brien 113A
Analysis of the effect of different cooking processes on the percentage bioaccessibility of carotenoids from tomato and red pepper (*Capiscum annuum* L).
L. Ryan, O.F. O'connell & N.M. O'brien 113A
Plasma uptake of methyl donors from wheat fractions by human subjects.
R.K. Price, E.M. Keaveney, L.L. Hamill, J.M. Wallace, H. Mcnulty, M. Ward, J.J. Strain, P.M. Ueland, J.M. Scott, A.M. Molloy & R.W. Welch 114A

Index of Subjects

Accuracy of estimation
Controversies in the determination of energy requirements.
66, 367, 2007, DOI: 10.1017/S0029665107005630

Acute-phase response
Signals generating anorexia during acute illness.
66, 321, 2007, DOI: 10.1017/S0029665107005587

Adipokines
The interplay between nutrients and the adipose tissue.
66, 171, 2007, DOI: 10.1017/S0029665107005423

Adipose and pancreatic hormones
Peripheral tissue–brain interactions in the regulation of food intake.
66, 131, 2007, DOI: 10.1017/S0029665107005368

Adipose tissue
Metabolic cross talk between the colon and the periphery: implications for insulin sensitivity.
66, 351, 2007, DOI: 10.1017/S0029665107005617
The interplay between nutrients and the adipose tissue.
66, 171, 2007, DOI: 10.1017/S0029665107005423

Adult chronic disease risk
Life-course approaches to inequalities in adult chronic disease risk.
66, 216, 2007, DOI: 10.1017/S0029665107005460

Aging
Critical illness and changes in sensory perception.
66, 331, 2007, DOI: 10.1017/S0029665107005599

Allergy
Effects of dietary retinoids and carotenoids on immune development.
66, 458, 2007, DOI: 10.1017/S002966510600509X

Anti-carcinogenic activity
Phytochemicals and cancer.
66, 207, 2007, DOI: 10.1017/S0029665107005459

Antioxidants
Nutritional supplements and conventional medicine; what should the physician know?
66, 471, 2007, DOI: 10.1017/S0029665107005782

ApoE genotype
ApoE genotype, cardiovascular risk and responsiveness to dietary fat manipulation.
66, 183, 2007, DOI: 10.1017/S0029665107005435
The impact of EPA and DHA on blood lipids and lipoprotein metabolism: influence of apoE genotype.
66, 60, 2007, DOI: 10.1017/S0029665107005307

Atherosclerotic CVD
Mechanisms of the components of the metabolic syndrome that predispose to diabetes and atherosclerotic CVD.
66, 82, 2007, DOI: 10.1017/S0029665107005320

B-vitamins
B-vitamins, genotype and disease causality.
66, 539, 2007, DOI: 10.1017/S0029665107005861

Benefits
One is okay, more is better? Pharmacological aspects and safe limits of nutritional supplements.
66, 493, 2007, DOI: 10.1017/S0029665107005812

Birth weight
Programming of body composition by early growth and nutrition.
66, 423, 2007, DOI: 10.1017/S0029665107005691

Blood pressure
Integration of physiological and molecular mechanisms of the developmental origins of adult disease: new concepts and insights.
66, 442, 2007, DOI: 10.1017/S002966510700571X

BMI
CVD risk in South Asians: the importance of defining adiposity and influence of dietary polyunsaturated fat.
66, 286, 2007, DOI: 10.1017/S0029665107005514

Body composition
Programming of body composition by early growth and nutrition.
66, 423, 2007, DOI: 10.1017/S0029665107005691

Bone mineral density
Genetics of osteoporosis.
66, 158, 2007, DOI. 10.1017/S002966510700540X

Brassica
Effect of cooking brassica vegetables on the subsequent hydrolysis and metabolic fate of glucosinolates.
66, 69, 2007, DOI: 10.1017/S0029665107005319

Breast-fed infants
Session 4: Mineral metabolism and body composition Iron status of breast-fed infants.
66, 412, 2007, DOI: 10.1017/S002966510700568X

Breast-feeding
Session 1: Feeding and infant development Breast-feeding and immune function.
66, 384, 2007, DOI: 10.1017/S0029665107005654

Calcium
Elsie Widdowson Lecture 2006 Mining the depths: metabolic insights into mineral nutrition.
66, 512, 2007, DOI: 10.1017/S0029665107005836

Cancer
Risk management of nutritional supplements in chronic illness: the implications for the care of cancer and depression.
66, 483, 2007, DOI: 10.1017/S0029665107005800

Carbohydrate-induced hypertriacylglycerolaemia
Metabolic interaction of dietary sugars and plasma lipids with a focus on mechanisms and *de novo* lipogenesis.
66, 52, 2007, DOI: 10.1017/S0029665107005290

Carotenoids
Effects of dietary retinoids and carotenoids on immune development.
66, 458, 2007, DOI: 10.1017/S002966510600509X

Catch-up growth
Session 7: Early nutrition and later health Early developmental pathways of obesity and diabetes risk.
66, 451, 2007, DOI: 10.1017/S0029665107005721

Chemoprevention
Phytochemicals and cancer.
66, 207, 2007, DOI: 10.1017/S0029665107005459

Childhood obesity
Session 7: Early nutrition and later health Early developmental pathways of obesity and diabetes risk.
66, 451, 2007, DOI: 10.1017/S0029665107005721

Cholestasis
Managing liver dysfunction in parenteral nutrition.
66, 530, 2007, DOI: 10.1017/S002966510700585X

Colon
Metabolic cross talk between the colon and the periphery: implications for insulin sensitivity.
66, 351, 2007, DOI: 10.1017/S0029665107005617

Complementary and alternative medicine therapies
Use of herbal supplements and nutritional supplements in the UK: what do we know about their pattern of usage?
66, 479, 2007, DOI: 10.1017/S0029665107005794

Conditionally-essential nutrients
Nutritional supplements and conventional medicine; what should the physician know?
66, 471, 2007, DOI: 10.1017/S0029665107005782

Coronary artery disease
n-3 PUFA in CVD: influence of cytokine polymorphism.
66, 166, 2007, DOI: 10.1017/S0029665107005411

Critical illness
Critical illness and changes in sensory perception.
66, 331, 2007, DOI: 10.1017/S0029665107005599
Glucose control in the intensive care unit: how it is done.
66, 362, 2007, DOI: 10.1017/S0029665107005629
Nutritional interventions in critical illness.
66, 16, 2007, DOI: 10.1017/S0029665107005253
Protein and the critically ill; do we know what to give?
66, 378, 2007, DOI: 10.1017/S0029665107005642
Strategies to improve ingestive behaviour with reference to critical illness.
66, 346, 2007, DOI: 10.1017/S0029665107005605

Crohn's disease
Evidence for the use of probiotics and prebiotics in inflammatory bowel disease: a review of clinical trials.
66, 307, 2007, DOI: 10.1017/S0029665107005563

CVD
ApoE genotype, cardiovascular risk and responsiveness to dietary fat manipulation.
66, 183, 2007, DOI: 10.1017/S0029665107005435

Cytokines
n-3 PUFA in CVD: influence of cytokine polymorphism.
66, 166, 2007, DOI: 10.1017/S0029665107005411
Signals generating anorexia during acute illness.
66, 321, 2007, DOI: 10.1017/S0029665107005587

***De novo* lipogenesis**
Metabolic interaction of dietary sugars and plasma lipids with a focus on mechanisms and *de novo* lipogenesis.
66, 52, 2007, DOI: 10.1017/S0029665107005290

Depression
Risk management of nutritional supplements in chronic illness: the implications for the care of cancer and depression.
66, 483, 2007, DOI: 10.1017/S0029665107005800

DHA
Differential immunomodulation with long-chain *n*-3 PUFA in health and chronic disease.
66, 238, 2007, DOI: 10.1017/S0029665107005472

Diabetes mellitus
Extra-adrenal regeneration of glucocorticoids by 11β-hydroxysteroid dehydrogenase type 1: physiological regulator and pharmacological target for energy partitioning.
66, 1, 2007, DOI: 10.1017/S002966510700523X

Diarrhoea
Enteral-tube-feeding diarrhoea: manipulating the colonic microbiota with probiotics and prebiotics.
66, 299, 2007, DOI: 10.1017/S0029665107005551

Diet–gene interactions
Dietary and genetic modulation of DNA repair in healthy human adults.
66, 42, 2007, DOI: 10.1017/S0029665107005289

Diet
Nutrition interventions in women in low-income groups in the UK.
66, 25, 2007, DOI: 10.1017/S0029665107005265
Nutritional management of gut health in pigs around weaning.
66, 260, 2007, DOI: 10.1017/S0029665107005484

Dietary fat
ApoE genotype, cardiovascular risk and responsiveness to dietary fat manipulation.
66, 183, 2007, DOI: 10.1017/S0029665107005435

Dietary restraint
The psychology of food craving.
66, 277, 2007, DOI: 10.1017/S0029665107005502

Dietary supplements
Nutritional supplements and conventional medicine; what should the physician know?
66, 471, 2007, DOI: 10.1017/S0029665107005782

Dieting
The psychology of food craving.
66, 277, 2007, DOI: 10.1017/S0029665107005502

DNA repair systems
Dietary and genetic modulation of DNA repair in healthy human adults.
66, 42, 2007, DOI: 10.1017/S0029665107005289

EARNEST: Early nutrition programming project
Session 6: Infant nutrition: future research developments in Europe EARNEST, the early nutrition programming project: EARly Nutrition programming – long-term Efficacy and Safety Trials and integrated epidemiological, genetic, animal, consumer and economic research.
66, 435, 2007, DOI: 10.1017/S0029665107005708

Elderly
Folate and vitamin B_{12}: friendly or enemy nutrients for the elderly.
66, 548, 2007, DOI: 10.1017/S0029665107005873

Elsie Widdowson
Elsie Widdowson Lecture 2006 Mining the depths: metabolic insights into mineral nutrition.
66, 512, 2007, DOI: 10.1017/S0029665107005836

Energy balance
Developmental programming of energy balance and the metabolic syndrome.
66, 198, 2007, DOI: 10.1017/S0029665107005447

Energy homeostasis
The interplay between nutrients and the adipose tissue.
66, 171, 2007, DOI: 10.1017/S0029665107005423

Energy intake
Cues to overeat: psychological factors influencing overconsumption.
66, 113, 2007, DOI: 10.1017/S0029665107005344

Energy partitioning
Extra-adrenal regeneration of glucocorticoids by 11β-hydroxysteroid dehydrogenase type 1: physiological regulator and pharmacological target for energy partitioning.
66, 1, 2007, DOI: 10.1017/S002966510700523X

Energy requirements in clinical conditions
Controversies in the determination of energy requirements.
66, 367, 2007, DOI: 10.1017/S0029665107005630

Enteral nutrition
Enteral-tube-feeding diarrhoea: manipulating the colonic microbiota with probiotics and prebiotics.
66, 299, 2007, DOI: 10.1017/S0029665107005551

Environmental factors
Cues to overeat: psychological factors influencing overconsumption.
66, 113, 2007, DOI: 10.1017/S0029665107005344

EPA
Differential immunomodulation with long-chain *n*-3 PUFA in health and chronic disease.
66, 238, 2007, DOI: 10.1017/S0029665107005472

Essential fatty acids
Human milk: maternal dietary lipids and infant development.
66, 397, 2007, DOI: 10.1017/S0029665107005666

EU regulations
Nutritional supplements and the EU: is anyone happy?
66, 508, 2007, DOI: 10.1017/S0029665107005824

European Union
Session 6: Infant nutrition: future research developments in Europe EARNEST, the early nutrition programming project: EARly Nutrition programming – long-term Efficacy and Safety Trials and integrated epidemiological, genetic, animal, consumer and economic research.
66, 435, 2007, DOI: 10.1017/S0029665107005708

Fat
Sensory processing in the brain related to the control of food intake.
66, 96, 2007, DOI: 10.1017/S0029665107005332

Fatty acids
The interplay between nutrients and the adipose tissue.
66, 171, 2007, DOI: 10.1017/S0029665107005423

Fish oils
The impact of EPA and DHA on blood lipids and lipoprotein metabolism: influence of apoE genotype.
66, 60, 2007, DOI: 10.1017/S0029665107005307

Fish
Secondary prevention of CHD in UK men: the Diet and Reinfarction Trial and its sequel.
66, 9, 2007, DOI: 10.1017/S0029665107005241

Folate
B-vitamins, genotype and disease causality.
66, 539, 2007, DOI: 10.1017/S0029665107005861
Folate and vitamin B_{12}: friendly or enemy nutrients for the elderly.
66, 548, 2007, DOI: 10.1017/S0029665107005873

Food and herbal supplements
Use of herbal supplements and nutritional supplements in the UK: what do we know about their pattern of usage?
66, 479, 2007, DOI: 10.1017/S0029665107005794

Food choice
Nutrition interventions in women in low-income groups in the UK.
66, 25, 2007, DOI: 10.1017/S0029665107005265

Food craving
The psychology of food craving.
66, 277, 2007, DOI: 10.1017/S0029665107005502

Food fortification
Folate and vitamin B_{12}: friendly or enemy nutrients for the elderly.
66, 548, 2007, DOI: 10.1017/S0029665107005873

Food intake regulation
Peripheral tissue–brain interactions in the regulation of food intake.
66, 131, 2007, DOI: 10.1017/S0029665107005368

Food intake
Signals generating anorexia during acute illness.
66, 321, 2007, DOI: 10.1017/S0029665107005587

Food supplements
Nutritional supplements and the EU: is anyone happy?
66, 508, 2007, DOI: 10.1017/S0029665107005824

Food texture
Sensory processing in the brain related to the control of food intake.
66, 96, 2007, DOI: 10.1017/S0029665107005332

Fracture
Genetics of osteoporosis.
66, 158, 2007, DOI: 10.1017/S002966510700540X

Gastrointestinal signals
Peripheral tissue–brain interactions in the regulation of food intake.
66, 131, 2007, DOI: 10.1017/S0029665107005368

Genetic polymorphism
B-vitamins, genotype and disease causality.
66, 539, 2007, DOI: 10.1017/S0029665107005861

Ghrelin
Strategies to improve ingestive behaviour with reference to critical illness.
66, 346, 2007, DOI: 10.1017/S0029665107005605

Glucocorticoids
Extra-adrenal regeneration of glucocorticoids by 11β-hydroxysteroid dehydrogenase type 1: physiological regulator and pharmacological target for energy partitioning.
66, 1, 2007, DOI: 10.1017/S002966510700523X

Glucose control
Glucose control in the intensive care unit: how it is done.
66, 362, 2007, DOI: 10.1017/S0029665107005629

Glucosinolate hydrolysis
Effect of cooking brassica vegetables on the subsequent hydrolysis and metabolic fate of glucosinolates.
66, 69, 2007, DOI: 10.1017/S0029665107005319

Glutamine
Nutritional interventions in critical illness.
66, 16, 2007, DOI: 10.1017/S0029665107005253

Growth factors
n-3 PUFA in CVD: influence of cytokine polymorphism.
66, 166, 2007, DOI: 10.1017/S0029665107005411

Growth
Integration of physiological and molecular mechanisms of the developmental origins of adult disease: new concepts and insights.
66, 442, 2007, DOI: 10.1017/S002966510700571X

Gut microflora
Probiotics and prebiotics in infant nutrition.
66, 405, 2007, DOI: 10.1017/S0029665107005678

Health and chronic disease
Differential immunomodulation with long-chain *n*-3 PUFA in health and chronic disease.
66, 238, 2007, DOI: 10.1017/S0029665107005472

Health inequalities
Life-course approaches to inequalities in adult chronic disease risk.
66, 216, 2007, DOI: 10.1017/S0029665107005460

Heart disease
Secondary prevention of CHD in UK men: the Diet and Reinfarction Trial and its sequel.
66, 9, 2007, DOI: 10.1017/S0029665107005241

Herbal remedies
Nutritional supplements and the EU: is anyone happy?
66, 508, 2007, DOI: 10.1017/S0029665107005824

Home parenteral nutrition
Managing liver dysfunction in parenteral nutrition.
66, 530, 2007, DOI: 10.1017/S002966510700585X

Human milk
Human milk: maternal dietary lipids and infant development.
66, 397, 2007, DOI: 10.1017/S0029665107005666

Hunger
The psychology of food craving.
66, 277, 2007, DOI: 10.1017/S0029665107005502

11β-Hydroxysteroid dehydrogenase
Extra-adrenal regeneration of glucocorticoids by 11β-hydroxysteroid dehydrogenase type 1: physiological regulator and pharmacological target for energy partitioning.
66, 1, 2007, DOI: 10.1017/S002966510700523X

Hypothalamic neuropeptides
Brain responses to obesogenic diets and diet-induced obesity.
66, 124, 2007, DOI: 10.1017/S0029665107005356

Immune development
Effects of dietary retinoids and carotenoids on immune development.
66, 458, 2007, DOI: 10.1017/S002966510600509X

Immune function
Session 1: Feeding and infant development Breast-feeding and immune function.
66, 384, 2007, DOI: 10.1017/S0029665107005654

Immunomodulation
Differential immunomodulation with long-chain *n*-3 PUFA in health and chronic disease.
66, 238, 2007, DOI: 10.1017/S0029665107005472

Indirect calorimetry
Controversies in the determination of energy requirements.
66, 367, 2007, DOI: 10.1017/S0029665107005630

Infant development
Human milk: maternal dietary lipids and infant development.
66, 397, 2007, DOI: 10.1017/S0029665107005666

Infant growth rate
Programming of body composition by early growth and nutrition.
66, 423, 2007, DOI: 10.1017/S0029665107005691

Inflammation
ApoE genotype, cardiovascular risk and responsiveness to dietary fat manipulation.
66, 183, 2007, DOI: 10.1017/S0029665107005435

Ingestion behaviour
Strategies to improve ingestive behaviour with reference to critical illness.
66, 346, 2007, DOI: 10.1017/S0029665107005605

Insulin resistance
High-fat diet, muscular lipotoxicity and insulin resistance.
66, 33, 2007, DOI: 10.1017/S0029665107005277
Mechanisms of the components of the metabolic syndrome that predispose to diabetes and atherosclerotic CVD.
66, 82, 2007, DOI: 10.1017/S0029665107005320
Session 7: Early nutrition and later health Early developmental pathways of obesity and diabetes risk.
66, 451, 2007, DOI: 10.1017/S0029665107005721

Insulin sensitivity
Metabolic cross talk between the colon and the periphery: implications for insulin sensitivity.
66, 351, 2007, DOI: 10.1017/S0029665107005617

Insulin-like growth factor-I
Session 7: Early nutrition and later health Early developmental pathways of obesity and diabetes risk.
66, 451, 2007, DOI: 10.1017/S0029665107005721

Intervention strategies
Strategies to improve ingestive behaviour with reference to critical illness.
66, 346, 2007, DOI: 10.1017/S0029665107005605

Intervention
Nutrition interventions in women in low-income groups in the UK.
66, 25, 2007, DOI: 10.1017/S0029665107005265

Interventions
Malnutrition: another health inequality?
66, 522, 2007, DOI: 10.1017/S0029665107005848

Intestinal failure
Is intestinal transplantation now an alternative to home parenteral nutrition?
66, 316, 2007, DOI: 10.1017/S0029665107005575

Intestine
Nutritional management of gut health in pigs around weaning.
66, 260, 2007, DOI: 10.1017/S0029665107005484

Intramyocellular lipids
High-fat diet, muscular lipotoxicity and insulin resistance.
66, 33, 2007, DOI: 10.1017/S0029665107005277

Iron requirements in infancy
Session 4: Mineral metabolism and body composition Iron status of breast-fed infants.
66, 412, 2007, DOI: 10.1017/S002966510700568X

Iron status
Session 4: Mineral metabolism and body composition Iron status of breast-fed infants.
66, 412, 2007, DOI: 10.1017/S002966510700568X

Isothiocyanates
Effect of cooking brassica vegetables on the subsequent hydrolysis and metabolic fate of glucosinolates.
66, 69, 2007, DOI: 10.1017/S0029665107005319

Lactation
Integration of physiological and molecular mechanisms of the developmental origins of adult disease: new concepts and insights.
66, 442, 2007, DOI: 10.1017/S002966510700571X

Leptin
Developmental programming of energy balance and the metabolic syndrome.
66, 198, 2007, DOI: 10.1017/S0029665107005447

Life-course processes
Life-course approaches to inequalities in adult chronic disease risk.
66, 216, 2007, DOI: 10.1017/S0029665107005460

Linkage, genetic and association studies
Genetics of osteoporosis.
66, 158, 2007, DOI: 10.1017/S002966510700540X

Lipopolysaccharides
Signals generating anorexia during acute illness.
66, 321, 2007, DOI: 10.1017/S0029665107005587

Liquid diets
Brain responses to obesogenic diets and diet-induced obesity.
66, 124, 2007, DOI: 10.1017/S0029665107005356

Liver disease
Managing liver dysfunction in parenteral nutrition.
66, 530, 2007, DOI: 10.1017/S002966510700585X

Long chain *n*-3 PUFA
CVD risk in South Asians: the importance of defining adiposity and influence of dietary polyunsaturated fat.
66, 286, 2007, DOI: 10.1017/S0029665107005514

Long-chain *n*-3 PUFA
The impact of EPA and DHA on blood lipids and lipoprotein metabolism: influence of apoE genotype.
66, 60, 2007, DOI: 10.1017/S0029665107005307

Malnutrition
Malnutrition: another health inequality?
66, 522, 2007, DOI: 10.1017/S0029665107005848

Mechanisms
Metabolic interaction of dietary sugars and plasma lipids with a focus on mechanisms and *de novo* lipogenesis.
66, 52, 2007, DOI: 10.1017/S0029665107005290

Medical conditions
Critical illness and changes in sensory perception.
66, 331, 2007, DOI: 10.1017/S0029665107005599

Medications
Critical illness and changes in sensory perception.
66, 331, 2007, DOI: 10.1017/S0029665107005599

Mendelian randomisation
B-vitamins, genotype and disease causality.
66, 539, 2007, DOI: 10.1017/S0029665107005861

Metabolic responses
Nutritional interventions in critical illness.
66, 16, 2007, DOI: 10.1017/S0029665107005253

Metabolic syndrome
CVD risk in South Asians: the importance of defining adiposity and influence of dietary polyunsaturated fat.
66, 286, 2007, DOI: 10.1017/S0029665107005514
Developmental programming of energy balance and the metabolic syndrome.
66, 198, 2007, DOI: 10.1017/S0029665107005447

Mechanisms of the components of the metabolic syndrome that predispose to diabetes and atherosclerotic CVD.
66, 82, 2007, DOI: 10.1017/S0029665107005320

Metabolism
Integration of physiological and molecular mechanisms of the developmental origins of adult disease: new concepts and insights.
66, 442, 2007, DOI: 10.1017/S002966510700571X

Microbial exposure
Session 1: Feeding and infant development Breast-feeding and immune function.
66, 384, 2007, DOI: 10.1017/S0029665107005654

Microflora
Enteral-tube-feeding diarrhoea: manipulating the colonic microbiota with probiotics and prebiotics.
66, 299, 2007, DOI: 10.1017/S0029665107005551

Micronutrient deficiencies
Nutritional supplements and conventional medicine; what should the physician know?
66, 471, 2007, DOI: 10.1017/S0029665107005782

Micronutrients
Malnutrition: another health inequality?
66, 522, 2007, DOI: 10.1017/S0029665107005848

Milk components
Session 1: Feeding and infant development Breast-feeding and immune function.
66, 384, 2007, DOI: 10.1017/S0029665107005654

Mineral metabolism
Elsie Widdowson Lecture 2006 Mining the depths: metabolic insights into mineral nutrition.
66, 512, 2007, DOI: 10.1017/S0029665107005836

Mitochondrial function
High-fat diet, muscular lipotoxicity and insulin resistance.
66, 33, 2007, DOI: 10.1017/S0029665107005277

Molecular effects
Phytochemicals and cancer.
66, 207, 2007, DOI: 10.1017/S0029665107005459

Mood
The psychology of food craving.
66, 277, 2007, DOI: 10.1017/S0029665107005502

Myocardial infarction
Secondary prevention of CHD in UK men: the Diet and Reinfarction Trial and its sequel.
66, 9, 2007, DOI: 10.1017/S0029665107005241

***n*-3 Fatty acids**
Human milk: maternal dietary lipids and infant development.
66, 397, 2007, DOI: 10.1017/S0029665107005666

Neural control
Peripheral tissue–brain interactions in the regulation of food intake.
66, 131, 2007, DOI: 10.1017/S0029665107005368

Nutrients
The interplay between nutrients and the adipose tissue.
66, 171, 2007, DOI: 10.1017/S0029665107005423

Nutrition profession
Professional regulation of nutritionists: where are we now?
66, 269, 2007, DOI: 10.1017/S0029665107005496

Nutritional programming
Programming of body composition by early growth and nutrition.
66, 423, 2007, DOI: 10.1017/S0029665107005691

Nutritional supplements
One is okay, more is better? Pharmacological aspects and safe limits of nutritional supplements.
66, 493, 2007, DOI: 10.1017/S0029665107005812
Risk management of nutritional supplements in chronic illness: the implications for the care of cancer and depression.
66, 483, 2007, DOI: 10.1017/S0029665107005800

Nutritional support
Nutritional interventions in critical illness.
66, 16, 2007, DOI: 10.1017/S0029665107005253

N and energy balance
Nutritional interventions in critical illness.
66, 16, 2007, DOI: 10.1017/S0029665107005253

Obesity
Developmental programming of energy balance and the metabolic syndrome.
66, 198, 2007, DOI: 10.1017/S0029665107005447
Extra-adrenal regeneration of glucocorticoids by 11β-hydroxysteroid dehydrogenase type 1: physiological regulator and pharmacological target for energy partitioning.
66, 1, 2007, DOI: 10.1017/S002966510700523X

Occupation
Professional regulation of nutritionists: where are we now?
66, 269, 2007, DOI: 10.1017/S0029665107005496

Olfaction
Sensory processing in the brain related to the control of food intake.
66, 96, 2007, DOI: 10.1017/S0029665107005332

Osteoporosis
Genetics of osteoporosis.
66, 158, 2007, DOI: 10.1017/S002966510700540X

Overconsumption
Brain responses to obesogenic diets and diet-induced obesity.
66, 124, 2007, DOI: 10.1017/S0029665107005356
Cues to overeat: psychological factors influencing overconsumption.
66, 113, 2007, DOI: 10.1017/S0029665107005344

Oxidative damage
High-fat diet, muscular lipotoxicity and insulin resistance.
66, 33, 2007, DOI: 10.1017/S0029665107005277

Oxidative status
ApoE genotype, cardiovascular risk and responsiveness to dietary fat manipulation.
66, 183, 2007, DOI: 10.1017/S0029665107005435

Parenteral nutrition
Is intestinal transplantation now an alternative to home parenteral nutrition?
66, 316, 2007, DOI: 10.1017/S0029665107005575
Managing liver dysfunction in parenteral nutrition.
66, 530, 2007, DOI: 10.1017/S002966510700585X

Pattern of supplement use
Use of herbal supplements and nutritional supplements in the UK: what do we know about their pattern of usage?
66, 479, 2007, DOI: 10.1017/S0029665107005794

Phosphorus
Elsie Widdowson Lecture 2006 Mining the depths: metabolic insights into mineral nutrition.
66, 512, 2007, DOI: 10.1017/S0029665107005836

Phytochemicals
Phytochemicals and cancer.
66, 207, 2007, DOI: 10.1017/S0029665107005459

Pig
Nutritional management of gut health in pigs around weaning.
66, 260, 2007, DOI: 10.1017/S0029665107005484

Polymorphisms
Dietary and genetic modulation of DNA repair in healthy human adults.
66, 42, 2007, DOI: 10.1017/S0029665107005289

Pouchitis
Evidence for the use of probiotics and prebiotics in inflammatory bowel disease: a review of clinical trials.
66, 307, 2007, DOI: 10.1017/S0029665107005563

Poverty
Nutrition interventions in women in low-income groups in the UK.
66, 25, 2007, DOI: 10.1017/S0029665107005265

Prebiotic
Evidence for the use of probiotics and prebiotics in inflammatory bowel disease: a review of clinical trials.
66, 307, 2007, DOI: 10.1017/S0029665107005563

Prebiotics
Probiotics and prebiotics in infant nutrition.
66, 405, 2007, DOI: 10.1017/S0029665107005678

Prediction methods
Controversies in the determination of energy requirements.
66, 367, 2007, DOI: 10.1017/S0029665107005630

Pro- and prebiotics
Enteral-tube-feeding diarrhoea: manipulating the colonic microbiota with probiotics and prebiotics.
66, 299, 2007, DOI: 10.1017/S0029665107005551

Probiotic
Evidence for the use of probiotics and prebiotics in inflammatory bowel disease: a review of clinical trials.
66, 307, 2007, DOI: 10.1017/S0029665107005563

Probiotics
Probiotics and prebiotics in infant nutrition.
66, 405, 2007, DOI: 10.1017/S0029665107005678

Professionalisation
Professional regulation of nutritionists: where are we now?
66, 269, 2007, DOI: 10.1017/S0029665107005496

Protein requirements
Protein and the critically ill; do we know what to give?
66, 378, 2007, DOI: 10.1017/S0029665107005642

Retinoic acid
Effects of dietary retinoids and carotenoids on immune development.
66, 458, 2007, DOI: 10.1017/S002966510600509X

Retinol
Effects of dietary retinoids and carotenoids on immune development.
66, 458, 2007, DOI: 10.1017/S002966510600509X

Risk assessment
Is intestinal transplantation now an alternative to home parenteral nutrition?
66, 316, 2007, DOI: 10.1017/S0029665107005575

Risk management
Risk management of nutritional supplements in chronic illness: the implications for the care of cancer and depression.
66, 483, 2007, DOI: 10.1017/S0029665107005800

Safety issues
One is okay, more is better? Pharmacological aspects and safe limits of nutritional supplements.
66, 493, 2007, DOI: 10.1017/S0029665107005812

SCFA
Metabolic cross talk between the colon and the periphery: implications for insulin sensitivity.
66, 351, 2007, DOI: 10.1017/S0029665107005617

Screening
Malnutrition: another health inequality?
66, 522, 2007, DOI: 10.1017/S0029665107005848

Senses
Critical illness and changes in sensory perception.
66, 331, 2007, DOI: 10.1017/S0029665107005599

Sensory-specific satiety
Sensory processing in the brain related to the control of food intake.
66, 96, 2007, DOI: 10.1017/S0029665107005332

Small intestinal transplantation
Is intestinal transplantation now an alternative to home parenteral nutrition?
66, 316, 2007, DOI: 10.1017/S0029665107005575

Socio-economic factors
Malnutrition: another health inequality?
66, 522, 2007, DOI: 10.1017/S0029665107005848

Socio-environmental determinants of health
Life-course approaches to inequalities in adult chronic disease risk.
66, 216, 2007, DOI: 10.1017/S0029665107005460

South Asians
CVD risk in South Asians: the importance of defining adiposity and influence of dietary polyunsaturated fat.
66, 286, 2007, DOI: 10.1017/S0029665107005514

Storage, preparation and cooking
Effect of cooking brassica vegetables on the subsequent hydrolysis and metabolic fate of glucosinolates.
66, 69, 2007, DOI: 10.1017/S0029665107005319

Sugars
Metabolic interaction of dietary sugars and plasma lipids with a focus on mechanisms and *de novo* lipogenesis.
66, 52, 2007, DOI: 10.1017/S0029665107005290

Survival
Is intestinal transplantation now an alternative to home parenteral nutrition?
66, 316, 2007, DOI: 10.1017/S0029665107005575

TAG
The impact of EPA and DHA on blood lipids and lipoprotein metabolism: influence of apoE genotype.
66, 60, 2007, DOI: 10.1017/S0029665107005307

Taste
Sensory processing in the brain related to the control of food intake.
66, 96, 2007, DOI: 10.1017/S0029665107005332

'Thrifty phenotype'
Developmental programming of energy balance and the metabolic syndrome.
66, 198, 2007, DOI: 10.1017/S0029665107005447

Timing of umbilical cord clamping
Session 4: Mineral metabolism and body composition Iron status of breast-fed infants.
66, 412, 2007, DOI: 10.1017/S002966510700568X

Type 2 diabetes
High-fat diet, muscular lipotoxicity and insulin resistance.
66, 33, 2007, DOI: 10.1017/S0029665107005277
Mechanisms of the components of the metabolic syndrome that predispose to diabetes and atherosclerotic CVD.
66, 82, 2007, DOI: 10.1017/S0029665107005320

UK
Professional regulation of nutritionists: where are we now?
66, 269, 2007, DOI: 10.1017/S0029665107005496

Ulcerative colitis
Evidence for the use of probiotics and prebiotics in inflammatory bowel disease: a review of clinical trials.
66, 307, 2007, DOI: 10.1017/S0029665107005563

Vitamin B_{12} deficiency
Folate and vitamin B_{12}: friendly or enemy nutrients for the elderly.
66, 548, 2007, DOI: 10.1017/S0029665107005873

Vitamin D
Elsie Widdowson Lecture 2006 Mining the depths: metabolic insights into mineral nutrition.
66, 512, 2007, DOI: 10.1017/S0029665107005836

Waist circumference
CVD risk in South Asians: the importance of defining adiposity and influence of dietary polyunsaturated fat.
66, 286, 2007, DOI: 10.1017/S0029665107005514

Weaning
Nutritional management of gut health in pigs around weaning.
66, 260, 2007, DOI: 10.1017/S0029665107005484

Weight regulation
Cues to overeat: psychological factors influencing overconsumption.
66, 113, 2007, DOI: 10.1017/S0029665107005344

Women
Nutrition interventions in women in low-income groups in the UK.
66, 25, 2007, DOI: 10.1017/S0029665107005265
